OBJECTIVE / SUMMARY

- **Skilled MERN Full Stack developer with experience in GCP, AWS, and UI/UX design. Focused on building responsive, scalable web apps with seamless cloud integration and user-friendly interfaces.**

WORK EXPERIENCE

- **FREELANCER - Technical Development / Designing(UI/UX)** January 2024 - Present
 - Delivered custom full-stack web applications using MERN stack, tailored to client requirements.
 - Designed intuitive user interfaces with Figma and Adobe tools to enhance usability.
- **WCOOPEF - Graphics Designing & Social Media** January 2025 - Present
 - Designed event branding material and managed content for social media platforms.
 - Improved digital visibility and user engagement through targeted graphics and campaigns.
 - Collaborated on strategic planning to align visual content with event goals.
- **EXPLOTXPLORERS - Community Coordinator | Ahmedabad** December 2023 - April 2025
 - Led UI/UX design, branding, and full-stack web development for community-driven platforms.
 - Developed and maintained interactive websites using MERN stack, ensuring performance and responsiveness.
 - Organized and contributed to developer outreach activities, technical sessions, and design workshops.
- **IEEE SOU SB - Creative Committee Chairperson | Ahmedabad** January 2024 - September 2024
 - Headed a team of designers to develop visual assets for university events.
 - Oversaw branding and messaging alignment across promotional materials.
- **GDSC SOU - Graphics Designer | Ahmedabad** December 2023 - August 2024
 - Designed engaging digital assets for tech events, workshops, and campaigns.
 - Worked closely with developers and content creators to maintain design consistency

TECHNICAL SKILLS

- | | | | |
|-----------------|--------------------|--------------|-------------------|
| • C & C++ | • MS Office GSuite | • Agile | • Communication |
| • Bootstrap | • Power Bi | • Sketchup | • Leadership |
| • Java | • Illustrator | • PremierPro | • Problem Solving |
| • Python | • Ui/Ux & Figma | • GCP | • Creativity |
| • Dart (Basics) | • Wordpress | • Agile | • Adaptability |
| • JavaScript | • AfterEffect | • Jira | • Firebase |
| • Html - CSS | • FlutterFlow | • Typescript | • Bootstrap |
| • Git/Github | • GCP | • DSA in C | • Postgres |
| • M.E.R.N Stack | • AWS (Basics) | • OOP | |

ACADEMIC DETAILS

- **Bachelor of Technology (CE) | Silver Oak University | SPI : 8.5** August 2023 - May 2027
- **XII (PCM - GSEB) | The Imperial Science School** June 2022 - May 2023
- **X (GSEB) | The Imperial Science School** April 2020 - May 2021

GLOBAL PARTICIPATION & WINNING

- **IEEE SUMMER CODE QUEST UI/UX AND FRONT-END EDITION** 2nd Position - (1st Runner-UP)
- **RHA INDIA CHALLENGE 2024** 1st Position & Winner
- **IGNITE E-CELL TECH FEST** 2nd Position

CERTIFICATIONS

- **C | C++ | Animation & Graphics | HTML & CSS & JS** [Udemy](#)
- **Java & WordPress Certificate** [SkillzCafe](#)
- **Flutter Basics And Frontend Certificate** [GDSC SOU](#)
- **Graphics & UI/UX Designing Certificate** [BP | Udemy | Forage](#)
- **Google Cloud Fundamentals & Security Certificate & 101+ Badges** [Google Cloud Skill Badges](#)
- **GitHub Foundations | AWS Educate Introduction | 51+ Badges** [Credly](#)

PROJECTS

- **ExploitXplorers Community** **Industrial Projects**
 - Built a responsive platform with forums and resource sharing. Used REST APIs, JWT auth, deployed on GCP Cloud Run with CI/CD.
 - Tech: MERN, JWT, GCP, GitHub Actions, Terraform, Kubernetes, Cloud Monitoring, CI/CD pipelines
 - Website: exploitxplorers.in
- **RAY Infrastructure Pvt. Ltd.** **Industrial Projects**
 - Designed and developed a responsive website with AWS S3 storage. Implemented REST APIs, Redux state, deployed via AWS Elastic Beanstalk and Jenkins CI/CD.
 - Website: www.rayinfra.in
- **Prescripto : Hospital/Clinic Appointment System | MERN** **Project : [Github](#)**
 - Built online booking And Hospital Management System With Proper UX research & usability testing platform with Redux, JWT-secured APIs, GCP Cloud Run deployment, and Cloud Functions for notifications. Improved load speed by 30%, handled 1000+ users, 99.9% uptime
 - Tech: Redux, MERN, JWT, GCP Cloud Run, Cloud Functions, Appwrite, Cloudinary, Jest, Cypress, UI/UX
 - Website: [Demo Link](#)
- **Storage Platform - Clone MEGA & Google Drive | MERN** **Project : [Github](#)**
 - Developed secure cloud storage with AES encryption, WebSockets sync, OAuth2/JWT auth, deployed on AWS S3, Lambda, EKS, Jenkins CI/CD.
 - Tech: React, MERN, WebSockets, OAuth2, JWT, AWS S3, Lambda, EKS, Jenkins, 8+Api Integration
 - Website: [Demo Link](#)

VOLUNTEER WORK

- **CCE - Silver Oak University** - Designing, Management, Developer, Outreach
- **AWS CLOUD CLUB SOU** - Designing, Management, Developer
- **GOOGLE DEVELOPER GROUPS & CLOUD GROUP (Ahmedabad | Gandhinagar)**

FREELANCING / OPEN SOURCE

- **Google Play Store Developer** Dev ID : [845211497542485175](#) , Krish Satasiya
- **Youtube - My Designed Video Graphics** Youtube Channel : [@satasiyakrish1](#)
